July 9th, 2014

To Whom It May Concern,

The Delta Upsilon Technology Chapter is appealing our suspension by the Delta Upsilon (DU) International Fraternity. In doing so we are seeking to obtain all of the reports and notes generated by MIT during their investigation of hazing allegations against the Technology Chapter.

In the investigation during the Spring 2014 semester led by Kevin Kraft, the Director of Student Citizenship, and Adam McCready, Assistant Director of FSILGs, we were denied access on multiple occasions to four documents that served key roles in MIT's investigation and the subsequent Delta Upsilon International investigation. This letter serves as a formal and final request for copies of these four documents:

1. The **anonymous hazing report** filed with the FSILG Office that initiated the original investigation.
2. **The notes from any and all meetings between Delta Upsilon Technology Chapter members and MIT administrators.** This includes, but is not limited to, the meetings with Descartes Holland, Guillaume Kugener, Louis DeScioli, Nathan Min, Kelly McGee, John Matthews, Ian Zaun, Tanner Guerra, Jeremy Ellison, Eric Dahlseng, Zach Churukian, Nolan Kruse, and Anuj Khandelwal. These meetings took place amongst several different MIT administrators, but most notably Kevin Kraft and Adam McCready.
3. **The internal MIT investigation report filed by Adam McCready** at the conclusion of the MIT investigation.
4. **The executive summary of the internal MIT report, given to DU International by MIT.**

Please promptly email scanned copies of these documents to me at dhallman@mit.edu. If you have any questions or are unable to comply with our request I can be reached at 858-401-9555.

Respectfully,

Dylan Hallman
Interim President, Delta Upsilon Technology Chapter

CC: Chris Colombo, MIT Dean for Student Life
Adam McCready, MIT Assistant Director of FSILGs
Dave Latham, DU Technology Chapter Housing Corporation President
Kevin Moore, DU Technology Chapter Housing Corporation Vice President
